DETAILED ACTION

This Office Action is in response to the Applicants' amendment filed December 15, 2005.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 46-57 recite the limitation "**the through holes**" in the last two lines of both claims 46 and 52. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 58-64 are allowed.

Claims 46-57 are would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

Applicant's arguments with respect to claims 46-64 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of the art with respect to semiconductor device structures:

Horiuchi et al. (5,737,191)
